

## Rancher Grille Guard

Installation Instructions

### 45694 / 46694

Chevy Silverado 2500hd/3500'01 - '02

Diagram 1

**Parts List:**

- |                           |                            |
|---------------------------|----------------------------|
| 1 - Rancher Grille Guard  | 2 - M12 x 50mm HH Bolts    |
| 2 - Bottom Bracket #694-7 | 4 - 1/2" x 1 1/2" HH Bolts |
| 2 - Top Brackets #499-5   | 4 - 1/2" Hex Nuts          |
|                           | 8 - 1/2" Flat Washers      |

**Note:** If your vehicle is not equipped with tow hooks, please call (800) 527-4345 for additional parts.

1. Remove the contents from the box and check for missing pieces or damage. If parts are missing or damaged, contact the original place of purchase. Read the instructions completely before beginning. Two people are strongly recommended for this install.
2. Remove the Factory Radiator Cover and Factory Grille: Open the hood on the truck. Using Diagram 2, locate the factory radiator cover. To remove the pop rivets, use a flat head screwdriver to pull up on the middle of the pop rivets. To remove the bottom part of pop rivet, place the screwdriver under the bottom and push up. Repeat this procedure to remove all pop rivets. To remove the factory grille, place your hand behind grille and push out until the grille can be removed. Place the factory radiator cover, pop rivets and factory grille to the side to be re-installed later.

4. To install bottom brackets #694-7: Using Diagram 4, locate the bottom brackets #694-7 for installation at this time.

A. Vehicles with tow hooks: If the vehicle is equipped with tow hooks, locate the inside bolt on tow hook. Loosen the inside bolt and remove. Place flat end of driver bottom brackets #694-7 up to inside bolt opening and replace the factory bolt with (1) M12 x 50mm hex head bolt as shown in Diagram 4. Hand tighten all bolts at this time. Repeat above procedure to install passenger bottom bracket #694-7.

B. Vehicles without tow hooks, please call (800) 527-4345 for additional parts. When you receive the parts, use the following procedure to install grille guard: If the vehicle is not equipped with tow hooks, the plastic spoiler must be cut out for the bottom bracket to pass through. Align the bottom bracket with the inside hole on the frame and place bottom bracket against the plastic spoiler and mark the area to be cut. Carefully cut a slot for the driver bottom bracket #694-7 to pass through the spoiler to the Grille Guard. Place bracket #699-9 to the inside of the frame and line up the threaded hole in bracket #699-9 with the inside hole of frame. Place driver bottom bracket #694-7 up to frame use (1) 1/2" x 1 1/4" hex head bolt and attach bottom bracket to threaded plate. Hand tighten all bolts at this time. Repeat above procedure to install passenger bottom bracket #695-8.

5. Re-install Factory Grille and Factory Radiator Cover: Re-install Factory Grille and Factory Radiator Cover. Align Factory grille with holes in vehicle, gently push the Factory Grille until it clicks closed. Take radiator cover and place it over the holes in vehicle. Replace pop rivets into vehicle.

6. Attach the Grille Guard to the mounting brackets: Using two people align the Grille Guard holes to the top brackets. Attach the Grille to the top brackets using (1) 1/2" x 2" hex head bolts, (2) 1/2" flat washers, (1) 1/2" lock washer and (1) 1/2" hex nut per hole in upright. Hand tighten all bolts at this time. Center the Grille Guard on the vehicle. Tighten all bolts at this time insuring the Grille Guard remains centered on vehicle.
