## Windshield Light Bracket Kit

(Engineered for use with 50" light bars)  
Installation Instructions

**94600**

Jeep Wrangler JK / Wrangler JK Unlimited  
2007 - 2018

### 94600 Components

- 1) Light Mounting Bracket (Driver)
- 1) Light Mounting Bracket (Passenger)
- 2) Adhesive Backed Gaskets
- 4) Nylon Plugs (Black)

### **Note: Completely read instructions before beginning installation!**

1. Remove contents from the box and check for missing pieces or damage. If parts are missing or damaged, please contact original place where item(s) were purchased.

*\*Perform installation of light brackets on one side of the vehicle at a time\**

2. Remove the 5 factory bolts from the windshield post as shown. (Fig. 1)
3. Place the adhesive backed gaskets (1 per side) onto the inside of the light brackets. (Fig. 2)

(If using the additional 94601 lower light combination brackets, please refer to the 94601 installation instructions at this time. If not then proceed to step 4)

4. Place the windshield light bracket upto the corresponding windshield post and attach using the factory hardware previously removed in step 2 (Fig. 3 circled) Leave hardware slightly loose at this time.
5. If not using the additional 94601 lower light combination brackets, install the black nylon plugs (2 per side) into the mounting holes as shown. (Fig. 3 arrows)
6. Repeat steps 2-5 on the opposite side of the vehicle.
7. You may now install your lights as recommended by the lighting manufacturer at this time.
8. Tighten all bracket hardware at this time.
9. After all installations are completed, re-check all hardware for tightness and final component location.

**Note: Re-check all hardware for proper tightness upon completion and periodically inspect hardware and parts for signs of wear throughout the life of the product.**
